Institute of Education, University College London, UK

Title: Towards a Curriculum for Sustainability and Justice

Fee: No charge for participation

URL: <http://ceteesd.ed.okayama-u.ac.jp/>

Dear colleges and guests,

Education for Sustainable Development (ESD), in which UNESCO has taken the initiative since 2005, is now undertaken in the Global Action Program (GAP) on ESD, with the purpose of its worldwide spread. Moreover, the promotion of ESD is advocated in the Target 4.7 of the United Nations Sustainable Development Goals (SDGs). The purpose of this core-to-core program (2017-2019) titled “ Formation of International Center of Excellence to Promote Teacher Education on ESD ”, in which Okayama University is a core institution, aims to collaboratively develop teacher training programs on ESD based on Lesson Study and to propose their Asian frameworks, coordinating with core institutions on teacher education in East Asia and Southeast Asia.

In this time, Prof. Dr. Ralph Levinson will deliver stimulating lecture on future directions of school and higher education, especially education for ESD educators and trainers, incorporating with the ideas sustainability and justice. We deeply appreciate your coming to share with us this unique experience.

Sincerely,

Hiroki Fujii
Director, Okayama University ESD Promotion Centre
Secretariat: Miho Arimoto arimotom@okayama-u.ac.jp
