

## Pre-Final Meeting

### “Promoting Teacher Education for Climate Change Education through Collaboration between Asian Centres of Excellence on Education for Sustainable Development (ATECCE)”

(Online, 21 February 2023)

#### Concept Note

#### 1. Background

This international joint research project focuses on climate change in relation to all of sustainability issues, and aims to develop an “Asian Framework of Teacher Education Programme for Climate Change Education” and a guide for its dissemination through the collaboration of Asian centres of excellence on Education for Sustainable Development (ESD). Through the Japan Society for the Promotion of Science (JSPS) Core-to-Core Programme (FY 2017-2019) and Japanese Official Development Assistance (ODA) Grants for UNESCO Activities (FY 2018-2019) organized by the team members of this research, several teacher education institutions in Asian countries have grown as centres of excellence on ESD (See <http://ceteesd.ed.okayama-u.ac.jp/>). Each institution is ready to develop teacher education programmes for climate change education. In addition, the numbers of young researchers who will be key figures in the next generation, are growing in each centre of excellence, allowing research teams to play a central role in programme development in this field.

#### 2. Objectives

- To share the development, implementation, and evaluation of ongoing teacher education programmes for climate change education at each institution and
- To identify success factors and challenges for developing an “Asian Framework of Teacher Education Programme for Climate Change Education” and its Dissemination Guide.

#### 3. Expected outputs

Reports on progress and lessons learned in incorporating climate change education into teacher education programme, courses, modules, and other instructional materials.

#### 4. Participants

The online meeting will bring together about **50 professors and many students** from member institutions and their cooperating institutions in nine Asian countries, China, India, Indonesia, Japan, Kazakhstan, Malaysia, Mongolia, the Philippines, and Thailand, as well as partner institutions in Europe and other regions.

#### 5. Time and venue

- **Tuesday, 21 February 2023, 13:00-17:00 (Japan Standard Time)** online via zoom
- <https://us02web.zoom.us/j/82411083619?pwd=T0FIWktBSGdDSWREalRNNUpTcW8xdz09>
- ID: 824 1108 3619
- PW: ATECCE2022

#### 6. Deliverables

Each institution’s delegation is asked to give a **brief 15-minute presentation** on the results of the research project in their respective countries.

**Pre-Final Meeting**
